

Organic Vegetable Box Scheme.

**NOW DELIVERING TO MALDON,
WICKFORD, SOUTH WOODAM FERRERS,
FAMBRIDGE, PURLEIGH &
WICKHAM BISHOPS!**

We run an organic vegetable box scheme. The box scheme is a weekly delivery of our seasonal Tillingham grown organic vegetables.

As the seasons change so do the vegetables in the box. Every week you will always have potatoes and carrots. During the winter your box will, for example, contain leeks, cabbage, parsnips, purple sprouting broccoli, curly kale and celeriac. In the summer months it will contain bunched beetroot, cucumber, lettuce, spinach, radish, pepper, fine beans, aubergines and fennel to name a few.

Each week the vegetables will vary, so you won't get cabbage week after week! I decide what vegetables will go in the box depending on what's available and ready to harvest in the fields that week. The vegetables are harvested freshly for your box.

Included in your box can be 6 Tillingham Laid Free Range Eggs which are also produced on the farm.

The villages and towns included in my Organic Vegetable Box Scheme are **Tillingham, Bradwell, Asheldam, Southminster, Burnham-on-Crouch, Althorne, Latchingdon, Cold Norton, Mundon, Maldon, Mayland, Steeple, St. Lawrence, Fambridge, Purleigh, Wickham Bishops, South Woodam Ferrers and Wickford .**

We are now delivering to **Wickford**. In Wickford we have a drop off point for the organic vegetable boxes. We deliver the boxes to Wickford Health Food Shop in the High Street and you would collect your box each week from the Health Food Shop.

There are five sizes of vegetable boxes; £8, £10, £12, £15 and £20.

Please contact us if you are interested in joining the organic vegetable box scheme. We plan to increase our delivery area so please keep checking the website to see if your town/village is included.
